

Executive THE ESSENTIALS OF MANAGEMENT CONSULTING

One-day Certification Course

ABOUT THE COURSE

The Executive Essentials of Management Consulting (Executive EMC) focuses on the three core consulting competencies:

- **Assessing** the client's current situation, understanding business challenges, and identifying opportunities;
- **Developing** strategies for the client's growth and development; and
- **Advising** on change management processes while implementing recommendations.

The course also reviews fundamentals required of a successful Certified Management Consultant (CMC), including **project management, tools and techniques** for each stage of **the consulting process**.

WHO SHOULD ENROLL?

This course is designed for the seasoned professional, whether they are pursuing their CMC designation or are an established CMC looking to refresh skills and connect with others at their level.

The Executive EMC may be required for some CMC Candidates and is **open to all consultants with at least 5-10 years of professional consulting experience**.

Instructors are based in Canada, delivering the course material in English, however, international learners are welcome! Please let us know if your home country or Institute requires any special documentation to recognize this course for credit.

DELIVERY

Live, online classes via Zoom.

A stable internet connection, microphone, and webcam are required to participate.

COST

\$950 / CMC-Canada members

\$1650/ non-members
